Two new Premium Slot Games from Play'n GO

Play'n GO, developer and supplier of cutting-edge software and solutions to the online gaming industry are proud to announce the release of two new slot games.

“We are proud to announce the release of two new premium slot games”, says Robert Skogh, Business Development Director at Play'n GO. “The release is on-time and according to our roll-out plan and we will continue to keep a steady flow of new game content adding to our already strong portfolio” Skogh added.

Pearl Lagoon

In this bubbly 5-reel, 20-line undersea slot game, the smiling dolphin serves as a wild symbol that substitutes for most other symbols and helps to comprise winning combinations worth double the normal prize. During free-spins the prizes for winning combinations are worth triple. Players can try to multiply any prize in the optional Gamble round.

Enchanted Meadows

The fairies delight in this fanciful 5-reel, 15-line slot. The enchanted tree is wild. It substitutes for most other symbols and magically grows to cover all three positions in the middle to help comprise winning combinations. Free spins with win multipliers, re-spins, bonus games and an optional Gamble round all help heightening the player experience.

The games will go live with selected partners this week and are already available on the Play'n GO demo-site at; <http://www.playngo.com/CasinoLobby/tabid/279/Default.aspx>
