

CASINO

The casino system from Play'n GO delivers outstanding quality in graphics, sound and player experience. Classic table games, video poker and slot machines are mixed with unique video slots and scratch cards delivering a full casino suite of games.

Our games are designed for use on big screen TV's, home computers and IVT machines. Flash technology enables the games to be played on a variety of platforms and internet browsers, maximising your customer base.

An extensive skinning and branding system enables your casino to stand out from the crowd. Combined with our powerful back office system, payment solutions and website with CMS, the casino product can be delivered as a turn-key solution.
